Abstract (en)
[origin: WO2023030973A1] The invention relates to an adapter (14) for attaching a wiper blade to an arm of a wiper system, the adapter (14) being configured to be rotatably mounted on a connector of the wiper blade about an axis of rotation (R), the adapter (14) comprising at least a side wall (34) and a curved top wall (32) comprising at least a first end edge (38) and a second end edge (40) which extend substantially in a longitudinal direction (L), the adapter (14) being defined by a vertical (V) and a transverse (T) section (S), the side wall (34) extending from the top wall (32) and such that at least one point of a free end (46) of the side wall (34) is included in the vertical (V) and the transverse (T) section (S).
