Abstract (en)  
[origin: WO2023028628A1] The invention relates to an adhesive element (1) comprising a carrier substrate (2) and an adhesive layer (3) arranged on the carrier substrate (2). According to the invention, the adhesive element (1) comprises at least one recycled material (4), and/or at least one material made of renewable raw materials, and/or at least one biologically degradable and/or marine-degradable material (5).
