Abstract (en)	[origin: WO2023068797A1] An aerosol-generating device is disclosed. The aerosol-generating device of the disclosure includes a cartridge formed to be elongated and containing liquid therein, a column formed on one side of the cartridge so as to be elongated, a cap configured to cover the cartridge and the column, and an insertion space into which a stick is inserted. The cap includes a stick support portion formed to be elongated and disposed between the cartridge and the column, and the insertion space is defined by the outer wall of the cartridge and the stick support portion.
