(54) **One-piece angle bracket for fastening a first construction element to a second construction element**

(57) A one-piece angle bracket (1) for fastening a first construction element (14) to a second construction element (15), said angle bracket (1) comprising:  
- a first section (2), a second section (3), - said first section (2) and said second section (3) being arranged essentially perpendicular to each other via a common bending section (4), furthermore the angle bracket (1) comprises a number of apertures (10) for receiving means (17) for fastening the first section (2) of the angle fastener (1) to a first construction element (14) and the second section (3) of the angle fastener (1) to a second construction element (15), finally the angle bracket (1) comprises an embossment (5) extending along the centre axis (7) of the first section (2) and along the centre axis (9) of the second section (3) via an embossed section of the common bending section (4), at least one of the apertures being placed with its centre substantially on the centre axis of the first (2) or the second section (3).
