(54) All-terrain footwear

(57) The present invention refers to all-terrain footwear (10), preferably boots, which comprises an external upper (11) joined at the bottom to a sole (18) and it is **characterised in that** it comprises a removable lining (20) on the inside. Preferably, such a removable lining (20) is made from a fabric resistant to nuclear, biological or chemical agents (NBC) and it is coupled with a water-proof and breathable membrane.

CLAIMS INCURRING FEES
The present European patent application comprised at the time of filing claims for which payment was due.
Only part of the claims have been paid within the prescribed time limit. The present European search report has been drawn up for those claims for which no payment was due and for those claims for which claims fees have been paid, namely claim(s):
No claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for those claims for which no payment was due.
LACK OF UNITY OF INVENTION
The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:
see sheet B
All further search fees have been paid within the fixed time limit. The present European search report has been drawn up for all claims.
As all searchable claims could be searched without effort justifying an additional fee, the Search Division did not invite payment of any additional fee.
Only part of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the inventions in respect of which search fees have been paid, namely claims:
None of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims, namely claims: 1, 2, 6, 15
The present supplementary European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims (Rule 164 (1) EPC).

LACK OF UNITY OF INVENTION SHEET B

Application Number

EP 09 15 7376

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

1. claims: 1, 2, 6, 15

An article of footwear with a removable lining made from fabric resistant to chemical agents and coupled to a waterproof and breathable membrane

2. claims: 1, 3, 15

An article of footwear with a removable lining made from honeycomb fabric coupled to a membrane $\,$

3. claims: 1, 4, 15

An article of footwear with a removable lining made from a multilayered laminate having a membrane $\,$

4. claims: 1, 5, 15

An article of footwear with a removable lining made from wool coupled to a membrane

5. claims: 1, 7-10, 15

An article of footwear with various aspects of a removable lining $% \left\{ 1,2,\ldots ,n\right\}$

6. claims: 1, 11-15

An article of footwear with various aspects of a sole structure

ANNEX TO THE EUROPEAN SEARCH REPORT ON EUROPEAN PATENT APPLICATION NO.

EP 09 15 7376

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
