54 **Wall.**

57 A double, earth-filled wall, adapted to sustain vegetation, wherein downward and inward inclined steel-sheet panels (7) are supported at their outer faces by tabs (3) punched out of the steel-sheet structural shape posts (2) engaging behind the beaded head edges (16) of panels (3). Tabs (8) punched likewise out of the sheet metal of posts (2) and engaging the rear face of panels (3) retain the same in position prior to back-filling.
