Moisture-permeable, water leak-preventive coated fabric.

57

Provided is a moisture-permeable, water leak-preventive, coated fabric comprising a base fabric having on at least one surface thereof a microporous layer formed of a synthetic polymer consisting essentially of a polyurethane, the coated fabric having a water entry pressure of not lower than 700 mmH₂O/cm², a moisture permeability of not less than 4,000 g/m².24 hrs. and a water leak resistance index at the back of the fabric after an artificial rainfall test of not less than 50.
