54 Bracket adaptable for mounting to a flat, vertical surface of an appliance.

57 A bracket is provided which is adaptable for mounting to outdoor appliances (18), such as outdoor camping stoves, which bracket is adapted to accommodate threaded elongated means (19) for leveling said appliance (18) upon an irregular surface. Preferably the brackets, threaded elongated bolts (19) and screws (17) for attaching the brackets to the appliance (18) are provided in a kit having a plurality of each sufficient in number to provide a complete leveling apparatus for an appliance.

CATEGORY OF CITED DOCUMENTS

X : particularly relevant if taken alone
Y : particularly relevant if combined with another document of the same category
A : technological background
O : non-written disclosure
P : intermediate document

T : theory or principle underlying the invention
E : earlier patent document, but published on, or after the filing date
D : document cited in the application
L : document cited for other reasons
& : member of the same patent family, corresponding document
