⑤④ **Shot-blasting machinery housed within a transportable container.**

⑤⑦ Shot blasting machinery is housed within a transportable container (10) which has predetermined areas of the sheeting which constitute the walls of the container removable to permit a workpiece to be conveyed past a shot blasting wheel of the machinery.

The shot blasting machinery comprises a blast cabinet (13), through which a workpiece (w) can be conveyed, at least one reversible shot blasting wheel assembly (15), an abrasive storage hopper (18) from which abrasive can be fed to the wheel assembly via a control valve (19) at least one conveyor screw (21) for collecting spent abrasive and debris from the workpiece and delivering same to at least one bucket elevator (20) which, in turn, delivers same to at least one separator (22) from which clean shot is returned to the storage hopper.
