London, WC1A 2RA(GB)

(54) Combined stop-cock chamber and surface box.

(57) A combined stop-cock chamber and surface box comprises a plastic tube in two parts 10, 11. The upper part 11 forms a surface box and is telescopically attached to the lower part 10 which houses the stop-cock. The two parts can be resiliently supported on a plastic plate to allow the surface box to be depressed resiliently by a load such as a vehicle wheel.

A ball valve housing 20 is moulded in the lower part 10 to prevent back siphonage.

## CLAIMS INCURRING FEES

The present European patent application comprised at the time of filing more than ten claims.

- ☐ All claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for all claims.
- ☐ Only part of the claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for the first ten claims and for those claims for which claims fees have been paid, namely claims:
- ☐ No claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for the first ten claims.

## X LACK OF UNITY OF INVENTION

The Search Division considers that the present European patent application does not comply with the requirement of unity of invention and relates to several inventions or groups of inventions, namely:

- 1) Claims 1-8
- 2) Claims 9-14

- ☐ All further search fees have been paid within the fixed time limit. The present European search report has been drawn up for all claims.
- ☐ Only part of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the inventions in respect of which search fees have been paid, namely claims:
- ☒ None of the further search fees has been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims, namely claims: 1-8
