54 **Container for a hook and loop fastener.**

57 The invention relates to a container for a hook and loop fastener, wherein the two tape-shaped component parts (1, 2) of the fastener are each received in the form of a roll (3, 4). According to the invention the container comprises two compartments (5, 6) which each receive one of the rolls, the cross-section of each compartment having the form of at least a portion of a circle, while the compartments are provided with a common outlet (9') through which the co-operating tape-shaped component parts (1, 2) may be dispensed as a coupled hook and loop fastener.
