54 **Foldable tables.**

57 A foldable table comprising a table portion with leg means (32) attached to the table portion and foldable for transportation purposes, the table portion comprising a centre portion having article receiving openings (20, 22 and 24), support means (12) below the openings for the support of articles located in them, and flexible side portions (4, 6) extending from opposite sides of the centre portion and foldable upwardly from the centre portion to define the folded condition of the table. When unfolded, the leg means supports the flexible side portions at or towards the outer edges thereof. The openings combined with the support means are intended to receive beverage consumption items such as bottles, ice buckets, glasses and the like.
