**CH-6900 Lugano(CH)**

(54) **Soft antitheft garment.**

(57) The garment (sleeveless shirt, short shorts, panties, etc) exhibits at least an inside pocket (4) which is accessible by an opening closed by a zipper (2).

To avoid outward bulging of the garment when a wallet, change purse or other bulky object is introduced into the pocket, it is provided to make the inside pocket in two layers, a rigid one adhering or hot-glued to the inside surface of the garment and the other pliable and elastic, which is deformed toward the inside of the garment, hiding the presence of said bulky object.

#### CATEGORY OF CITED DOCUMENTS

X : particularly relevant if taken alone  
Y : particularly relevant if combined with another document of the same category  
A : technological background  
O : non-written disclosure  
P : intermediate document

T : theory or principle underlying the invention  
E : earlier patent document, but published on, or after the filing date  
D : document cited in the application  
L : document cited for other reasons  
& : member of the same patent family, corresponding document
