(74) Representative: **Shindler, Nigel et al,**
BATCHELLOR, KIRK & EYLES 2 Pear Tree Court
Farringdon Road
London EC1R 0DS(GB)

(54) **Building panel.**

(57) A building panel comprising a pair of encasement members (2,4;6,8) adapted to fit together to form a shell which encloses a core (10), the core comprising a reinforcing insert structure (12) of strip material which is arranged within the shell so that the plane of the strip is normal to the major surfaces of the shell, and a settable filler material which is initially in a fluent form, so that it may be poured into the insert structure and can subsequently be set into a solid form.

CATEGORY OF CITED DOCUMENTS

X : particularly relevant if taken alone
Y : particularly relevant if combined with another document of the same category
A : technological background
O : non-written disclosure
P : intermediate document

T : theory or principle underlying the invention
E : earlier patent document, but published on, or after the filing date
D : document cited in the application
L : document cited for other reasons
& : member of the same patent family, corresponding document
