54 Liquid storage and delivery system for protective mask.

57 A liquid storage and delivery system for use with protective masks (12) having hand-operable bulb siphon pumps (15) in line with conduits extending from a canteen assembly (28) to the drinking mouthpiece (11) of the protective mask (12). The system includes structure to allow

a user to drink directly from a central storage/dispensing reservoir by connecting the conduits directly thereto, and also allows the canteen assembly to be refilled from the reservoir while maintaining the system's protective integrity.
