54 **Work chair.**

57 A work chair comprising a seat (20) and a back section (28) which is pivotally mounted on an arm (24). The chair (10) is arranged to be used for both sedentary and semi-sedentary working positions. In the former position the arm assumes a rearwards/outer position and the back section assumes an essentially perpendicular position, and in the latter position the arm assumes a forwards/inner position and the back section an essentially horizontal position in which it serves as a support when the user assumes a semi-sedentary position.
