⑤④ **Milling cutter for cutting the radioactively contaminated surface of concrete.**

⑤⑦ A milling cutter for cutting the radioactively contaminated surface of concrete and used at the time of repairing and dismantling nuclear facilities. The milling cutter is characterised in that guide grooves (4) are provided on the outer surface of a body (1), with their edges slanted from both sides of the body (1) toward the centre thereof, and that cutter inserts (2) are located along the stepped edge of each of the guide grooves (4) in such a manner that the cutter inserts (2) can be easily detached and that those located along the stepped edges of the adjacent grooves (4) are symmetrical in relation to the centre line of the body (1).
