### ④ Electric track for lighting devices (adaptors), with cylindrical development.

⑤ The electric track, for lighting devices (adaptors), includes an external shell (11) having an outside contour substantially cylindrical, in two symmetrical parts connected by a straight diaphragm (13) spaced from the axis to form a smaller channel (15), and an application means and a larger channel (17), and an extruded structural shape (3) received in said larger channel (17) and forming the channel seat (31) for the fitting means of the electric devices (adaptors) and the housings for the conductors.
