⑤④ **Structure of a stand for supporting and containing test tubes and the like.**

⑤⑦ The structure of a stand for supporting and containing test tubes and the like comprises a containment body (1) with an alveoliform configuration for defining a plurality of accommodation seats (2) for test tubes and the like. To said body there is applicable a lid element (10) defining, at each of said seats (2), an opening for introducing a test tube and provided with elastic blades (20) for removably retaining said test tubes in said seats.
