54 **A device for the controlled delivery of pasty substances.**

57 This invention relates to a delivering device for pasty substances, in particular depilatory waxes, in which a reservoir-applicator (10, 12) has a delivery slot (14) controlled by a freely rotatable knurled roller (16). The device comprises a cover element (18) with a shaped surface (20) for covering the delivery slot (14) and with supporting surfaces (24) for maintaining the device in a vertical position with its delivering head (12) down.
