⑰ Representative: Frankland, Nigel Howard et al
FORRESTER & BOEHMERT Widemayerstrasse 4/I
D-8000 München 22 (DE)

⑭ A support system.

⑮ A falsework support system is made from a number of frames (1). Each frame (1) has two vertical legs (2, 3) interconnected by a plurality of horizontal transoms (4, 5). Each transom has, at each end thereof, a vertical connecting element. The vertical connecting element is releasably connected, at two points which are spaced apart in the vertical direction, to a respective leg of the frame.

CATEGORY OF CITED DOCUMENTS					
X : particularly relevant if taken alone					
Y : particularly relevant if combined with another document of the same category					
A : technological background					
O : non-written disclosure					
P : intermediate document					
T : theory or principle underlying the invention					
E : earlier patent document, but published on, or after the filing date					
D : document cited in the application					
L : document cited for other reasons					
.....					
& : member of the same patent family, corresponding document
