Improved specialist pouch.

There is provided a method of mixing powdered or granular solid material (2) with a liquid (4) using a mixing bag (1). The bag (1) includes a mouth and an opening (5) with a non-return valve. In the method the bag is partly filled with a mixture of the powdered or granular material (2) through the mouth, the mouth is then closed, the liquid (4) is added through the non-return valve and the bag manipulated to mix the liquid (4) with the solid material (2). Suitably the non-return valve comprises a tubular insert (8) sealed into the bag.
