54 **Mobile kiosk for toll collection at superhighway toll stations.**

57 A description is given of a mobile kiosk (6) either fitted with wheels (20) or fixable on a trolley (2), and movable either with or without this latter along a rail track (10) mounted on a base plinth (1, 2, 3, 4) or on a roadway, both these levels being provided with connectors for all necessary services.

The kiosk is to be installed in a superhighway toll station of any type, and in particular in a "multi-checkpoint" superhighway toll station and entrance of which is arranged for the distribution of tickets and the exit for toll collection, ie in a toll station in which each corridor comprises a series of consecutive kiosks (6) positioned not in the direction of their width but in the direction of their depth, at variable distances apart.
