54 Built-in framework having paper sheet holding function.

57 This invention relates to a built-in framework having a paper sheet holding function, the framework being of a furniture fitting such as the movable indoor partition material, produced by a pair of framepieces (1, 2), holding a paper sheet (3) tightly between them, with one framepiece, in the form of a male framepiece (2), having a protruding part (21) and having a paper sheet holder (21) which combines correctly with the other framepiece, in the form of a female framepiece (1), to hold a paper sheet (3) between the framepieces.
