54 **Shoe Sole.**

57 A shoe sole comprises a body (2) made of plastic material on the upper surface of which a recessed area (3) is formed which is surrounded by a circumferential rim (4) designed to support an inner sole (5). Over the recessed area a plurality of supporting pegs (7) are distributed which are inclined according to mutually opposed directions and project towards the inner sole (5) terminating close to the latter. An air space (9) is created between the inner sole 5 and the recessed area (3).

**FIG 3**

**EP 0 295 219 A3**
