(54) Glazing bead element for a window assembly and window assembly.

(57) In an extruded section window frame, of for example UPVC, an arched top is provided by corner glazing bead elements (14). The window section has a rear stop element (9) and a forward hook section retainer groove (15), the latter interengaging with a hook cross section (19) of each straight outer edge;

(17, 18) of the corner glazing bead element (14). The element (14) has a chamfered arcuate edge portion (20) of part elliptical profile. Rear corner elements (23) having a similar profile may optionally be inserted in the rear of the frame (11).
