54 **A process for applying an ornamental and/or identification pattern on a fabric through a transfer technique.**

57 In order to apply an ornamental and/or identification pattern on a base fabric through a transfer technique, the base fabric (2) is positioned over a tambour (4), a strip of thermally stickable light reflecting fabric (6) is applied over the base fabric (2), and such strip (6) is temporarily fastened to the fabric by adhesive tape (8) or the like, then an embroidery (10) is applied to the two superimposed layers of base fabric and reflecting fabric along the contour of the desired pattern, and the portion (6a) of reflecting fabric outside the embroidery (10) is removed by tearing, whereupon the reflecting fabric inside the embroidery is permanently joined to the base fabric through the application of heat.
