(54) Detergent composition.

(57) A detergent composition contained in a tube or a pumping container, which is a gelatinous or pasty detergent composition including homogeneous or dispersed mixture of nonionic surface active agent having fluidity at room temperature and at least one member selected from a group consisting of organic

sulfonic acid salts and organic sulfuric ester salts. The detergent composition contained in a container is involuminous, easy to handle, stable in quality against a long-term-storage and satisfactory in detergency.
