CATEGORY OF CITED DOCUMENTS																	
X : particularly relevant if taken alone	T : theory or principle underlying the invention																
Y : particularly relevant if combined with another document of the same category	E : earlier patent document, but published on, or after the filing date																
A : technological background	D : document cited in the application																
O : non-written disclosure	L : document cited for other reasons																
P : intermediate document																	
	& : member of the same patent family, corresponding document
