An anti-tamper device.

An anti-tamper device for use with a security detection apparatus and provided with timer means (12) and detector means (14). Upon the detection of a person or article by the detector means, said means initiate the timer means. timer means (12) sare arranged such that this means initiates the operation of an alarm device (16) if an expected subsequent movement of the person or article does not occur after initiation of the timer means and within a time period set in the timer means.
