54 **Glass mounting strip.**

57 A mounting strip 10 (comprising of an extruded length of thermoplastic elastomer for mounting a glass pane 21 is generally in the shape of a right angled triangle, having a first leg 11 and a second leg 12, which legs define the right angled legs of the triangle and a hypotenuse 13. A recess 14 is provided which extends from the hypotenuse 14 into the

triangle parallel to first leg 11. Recess 14 serves to accommodate one edge of a glass pane 21.

The pane 21, including mounting strips 10 fitted to its edges is pushed into frame 20 until lip formation 15 clips over and firmly engages the free end of the side member 20.2.
