(54) **Heat-developable light-sensitive materials.**

(57) A heat-developable light-sensitive material having a light-sensitive layer containing a silver halide emulsion which comprises multiple-structure silver chlorobromide grains that are gold-sulfur sensitized in the presence of a sensitizing dye and have layers of differing halide composition. The multiple-structure silver chlorobromide grains can have one or more layers of differing halide composition or three or more layers of differing halide composition.
