(54) **Spirit stove.**

(57) This invention relates to a spirit stove. The spirit stove comprises a top (11) which is provided with at least one hot plate (15) of heat conducting material which is placed so that the plate joins the top. The stove has a spirit burner (33, 36, 37, 38) which is placed below the plate and to which air flows and from which fumes leave by natural ventilation. The plate is surrounded by a heat insulating material (23) having a surface which is exposed to the flames and/or the fumes.
