(57) Method to palletize textile packages, which includes:

- the enclosure of each single package in an individual bag (15) before positioning the package on the pallet,
- the positioning of the packages thus bagged in an orderly manner in the various layers arranged on the pallet, the packages thus posi-

tioned being substantially in contact with one another along, or along part of, their lateral surface,

- the interposing of separating cardboard sheets (17) by merely placing the same between one layer of packages (10) and the next layer, and
- the final finishing of the loaded pallet by wrapping the same in a suitable material.
