**I-20123 Milano (IT)**

(54) **Housing for control devices of built-in cooking hobs.**

(57) A housing (6) is provided for control devices of built-in cooking hobs (1), such control devices comprising a set of buttons, for instance of the touch type, timing and signal controls, indications of the working state of the cooking hob itself, light and/or acoustic safety devices. Inside a housing which has shape and size suitable to allow the maximum aesthetical adaptation, there are arranged movable or stationary, electronic or electromechanical devices necessary for the working of said controls which are mounted on the external surface (9) of the housing or even arranged therein. Such devices are connected, through holes formed in the cooking hob edge, to the apparatuses usually placed below the plane.
