**LACK OF UNITY OF INVENTION**

The Search Division considers that the present European patent application does not comply with the requirement of unity of invention and relates to several inventions or groups of inventions, namely:

1. Claim 1-3: A protective device for transport and storage of porcelainwares.
2. Claim 4: Carrying handle for piles of porcelainwares.

The common inventive concept (rule 30 of the European Patent Convention) between claim 1-3 and claim 4 is porcelainware. However porcelainware per se does not constitute an inventive concept and therefore claim 1-3 and claim 4 form two distinct inventions.
