London WC1A 2RA (GB)

(54) **Terminals used for terminating sealed wire**

(57) A terminal for processing a shielding wire (50) end, and more particularly a terminal for connecting a drain wire (51) (for grounding) of the shielding wire to a grounding wire (60) member as disclosed.

A plurality of terminals each comprising a terminal

body, a pair of press-contact members (11, 12) formed by inwardly bending opposite sides of the body and a tongue (13) projecting from a center of the body are fixed on a film-shaped carrier (20) with the press-contact members of the respective terminals being aligned in a line at a constant pitch.
