(57) An improved bathroom tissue dispenser (1) for holding both a large fresh roll (R) and a remnant roll (r) of bathroom tissues. The dispenser (1) has a base (3) with a spindle (7) on a main support area (5) of the base (3) for carrying the large fresh roll (R) of bathroom tissue. The base (3) has a secondary support area (35) beneath the main support

area (5) with means thereon for carrying the remnant roll (r) of bathroom tissue directly beneath the large roll (R). The remnant roll (r) is carried with its axis perpendicular to the axis of the large roll (R). The spindle (7) preferably has a tubular body and detachable means for increasing the diameter of the body.

CLAIMS INCURRING FEES

The present European patent application comprised at the time of filing more than ten claims.

- ☐ All claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for all claims.
- ☐ Only part of the claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for the first ten claims and for those claims for which claims fees have been paid, namely claims:
- ☐ No claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for the first ten claims.

LACK OF UNITY OF INVENTION

The Search Division considers that the present European patent application does not comply with the requirement of unity of invention and relates to several inventions or groups of inventions.

namely:

SEE SHEET B

- ☐ All further search fees have been paid within the fixed time limit. The present European search report has been drawn up for all claims.
- ☐ Only part of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the inventions in respect of which search fees have been paid.
- namely claims:
- ☒ None of the further search fees has been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims.

namely claims:

1 - 11

LACK OF UNITY OF INVENTION

SHEET 8

The Search Division considers that the present European patent application does not comply with the requirement of unity of invention and relates to several inventions or groups of inventions, namely:

1. Claims 1 to 11 : Bathroom tissue dispenser
2. Claims 12 to 16 : Spindle for a tissue dispenser
