(54) Quick-fit structural glazing

(57) Method and means for putting a panel 1 on a wall-construction, in which a C-shaped profile 2, comprising an elastic element 6 provided with lips 7 snapping on the ends 8 of the legs 9, is fixed to the panel 1.

The element 6 is provided with a groove 10, having an enlarged part 11 at its end.

The wall-construction comprises a tongue-profile

16, having an outer enlarged part to which the groove of the elastic element 6 is pressed during the assembly of the panel 1.

The wall-construction comprises screws 18 of which the central axes are parallel to the plane of the panel 1 and which fit in a groove 29 into a leg 9 of the C-shaped profile 2 and which serve to adjust and secure the panel 1 with respect to the wall-construction.
