Whitley Road
Longbenton, Newcastle upon Tyne NE12 9TS
(GB)

(54) **Granular detergent composition**

(57) A granular detergent composition is disclosed comprising a surfactant, soluble encapsulates of perfume and a detergency builder comprising zeolite P having a silicon to aluminium ratio not greater than 1.33, preferably not greater than 1.07, (zeolite MAP).

The composition preferably has a bulk density of at least 650g/l and may optionally contain percarbonate.

Use of zeolite MAP as detergency builder reduces perfume leakage which is a problem associated with conventional detergent compositions containing perfume capsules.
