(54) A perfected road scarifying machine for the removal of road surfacings

(57) The invention discloses a road scarifying machine (1) for road surfacings which comprises a frame (2) mounted on wheels (3) which supports a milling drum (6) connected to power means suited to drive it into rotation in order to crush said road surfacing (7) with which it comes into contact. Transversally to said

frame (2) there are conveyance means (9) suited to discharge to the side of the road scarifying machine (1) and off the working area (72) of the milling drum (6) the debris (71) resulting from the crushing of the road surfacing (7) itself.
