(54) **Series of hair prostheses for reducing baldness and application method thereof**

(57) A series of hair prostheses for reducing baldness and application method thereof, consisting in that a series (1) of prostheses (1-6) is produced and applied sequentially for each user. The prostheses (1-6) have increasingly larger areas, starting from an initial area

that is located in the region where the last strands of hair were lost, until the entire bald area is covered, and the natural distribution point of the user is maintained in each prosthesis (1-6) of the series (1).
