(54) **Anchorage device of the washing machine counterweight**

(57) Anchorage device for washing machines counterweights that is applied for the anchorage of the pressed concrete body that is fixed to the closed base of the tank, so that the device has a whole of pairs of pieces (2) and (9) that are united between them, being one of them joint to the tank (13) and being the other

joint to the concrete block(4), so that the piece (1), that is joint to the concrete counterweight (4), has a general cylindrical tubular shape, with diminishing internal diameter from its external base to the internal part having, in relationship to the external base (5), a body (6) of anchorage that is fixed by some flanges (7) that can be easily broken.
