**(54) An electrophotographic photoreceptor manufacturing method**

(57) An electrophotographic photoreceptor manufacturing method by applying at least one layer selected from an under coat layer, a photosensitive layer, and a top coat layer to a substrate of an electrophotographic photoreceptor of an electronic copier is disclosed,

wherein charge, which is caused due to flow or friction of a coating liquid before or in applying coating liquid to an original pipe, is discharged, neutralized, or inversely charged.
