**Derby DE1 1GY (GB)**

(54) **Labelling process**

(57) A labelling process comprises a first step of attaching a first label (12) substantially permanently to a substrate (10). Thereafter, the process comprises a second step of attaching a second label (14) to the sub-

strate. The attachment of the second label (14) is such that it can be removed from the substrate (10). When attached, the second label (14) substantially conceals the first label (12).

**CLAIMS INCURRING FEES**

The present European patent application comprised at the time of filing more than ten claims.

- ☐ Only part of the claims have been paid within the prescribed time limit. The present European search report has been drawn up for the first ten claims and for those claims for which claims fees have been paid, namely claim(s):
- ☐ No claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for the first ten claims.

**LACK OF UNITY OF INVENTION**

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

see sheet B

- ☐ All further search fees have been paid within the fixed time limit. The present European search report has been drawn up for all claims.
- ☐ Only part of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the inventions in respect of which search fees have been paid, namely claims:
- ☒ None of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims, namely claims:

1-23

Office

**LACK OF UNITY OF INVENTION**  
**SHEET B**

Application Number

EP 97 30 8681

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

1. Claims: 1-23,  
30 in so far as dependent on claims 1-23 (searched)

Removably superimposing a label onto another label which is permanently attached to a substrate

2. Claims: 24-29,30 as dependent on 24-29 (not searched)

Label structure
