(54) **Fixing bracket, particularly for ventilated walls, with simplified adjustment**

(57) A fixing bracket, particularly for ventilated walls, comprising a coupling element (1) which is meant to couple the bracket to a wall of a building and sliding adjustment means (4) associated with an engagement element (2) which is meant to engage at least one plate for covering the wall, the sliding adjustment means and the engagement element (2) being suitable to move along two mutually perpendicular axes, respectively to adjust the position of at least one plate on a vertical plane and on a horizontal plane.
