### (54) A tray for jewellery and imitation jewellery articles and the like

(57) The tray comprises a modular frame formed by four side members apt to be orthogonally joined end to end with each other. The tray is characterized in that each side member comprises on the inner surface of its

end portions two lugs with a pocket at their front end and two recesses each with a projection, respectively, said pockets resiliently fitting around and gripping the projections of the adjacent orthogonal side member.

CATEGORY OF CITED DOCUMENTS		T : theory or principle underlying the invention E : earlier patent document, but published on, or after the filing date D : document cited in the application L : document cited for other reasons & : member of the same patent family, corresponding document							
X : particularly relevant if taken alone Y : particularly relevant if combined with another document of the same category A : technological background O : non-written disclosure P : intermediate document									

ANNEX TO THE EUROPEAN SEARCH REPORT  
ON EUROPEAN PATENT APPLICATION NO.

EP 97 50 0190

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on. The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
