(54) **Detachable spindle for washing machine drum**

(57) Detachable spindle for washing machine drum which is applied for the transmission of the swiveling to the washing machine drum. This spindle has the corresponding bearings and the detent for allowing the turn with regard to the tank that covers the drum so that the

joining extreme of the spindle (1) to the drum (2) has a truncated cone shape with a pair of copes (9) that are diametrically confronted, on whose surface the injection of the drum body is realized so that it will be leaned against the same during the assembly.
