(30) Priority: **21.01.1997 ES 9700102**

(54) **New drying system for laundry dryer**

(57) New drying system for dryer washing machines, being of the kind of those dryer washing machines that once the washing and centrifugal cycle have finished, the drying process starts for leaving the clothes on the point for being ironed or ready to put them in the wardrobe, so that all the components of the system are inserted into the hole of the machine door (1), being

formed the hollow with truncated cone shape of the same one by a drilled sheet (2) of little thickness remaining, both the body (3) of the resistances and the ventilator sails (4) that are located into the hollow with truncated cone shape, directed to the machine opening in contact with the water that is evacuated through the lower holes (7).
