(54) **Electrical appliance**

(57) An electrical appliance is disclosed and includes a housing (113) and a fan casing (150) supporting a motor (145) attached to the housing (113). The motor (145) is inaccessible without detaching the casing (150) from the housing (113). This prevents repairs to the motor from being attempted without first detaching the casing and damage to the fan motor (145) from occurring when it is inadvertently struck by tools during such attempted repairs.

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 98 30 0523

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
